

Strength through Industry & Technology

NDIA Initiatives Discussion

Take ownership- how do we build on our successes?

30 January 2008
El Segundo, CA
NDIA Conference

The State of EVM

- Needs improvement
- We acknowledge that we are a part of the problem
- It's time to partner with our stakeholders and identify new solutions

How do we recognize our problems and build on our successes?

Objectives

- Establish a collaborative government-industry initiative to:
 - Improve the use of EVM for all parties by implementing EVM processes and techniques that provide timely, predictive, reliable and actionable program performance data
 - Make EVM implementation and oversight effective and efficient

Continuous improvement is a journey not an end state

Opportunities

- Increase commonality and consistency of EVM implementation across industry and government
- Proactive and timely resolution of contractual EVMS implementation and oversight issues
- Share industry and government best practices and lessons learned
- Review and discuss industry/government EVM policy and guidance
- Improve EVM skill set (people, processes and tools)

NDIA Initiatives

- Ensure industry/government executive groups are addressing EVM issues
- Leverage industry/government EVM expertise to collaborate on future policy and guidance
- Work with educational institutions to develop EVM course curricula

NDIA Initiatives (cont.)

- Encourage joint industry/government training:
 - Scheduling
 - EVM
 - Surveillance
 - Contracting for EVM
 - IBR
 - Acceptance
- Engage the Program Management community in pursuit of our objectives:
 - DoD
 - OMB
 - GAO
 - Professional Associations
 - Intelligence agencies
 - Civilian agencies
 - DAU and FAI

Going forward...

- Facilitate communication of best practices for oversight, initiatives and guidance through
 - Publications
 - Training
 - Websites
 - Conferences and events
- Work together to increase the value of EVMS to:
 - Executive management
 - Program management
 - Oversight organizations

Collaboration Breeds Success

Strength through Industry & Technology

Discussion/Future Actions...

This presentation represents the PMSC's Strategic Vision. It is our desire that Government join with us!
