

# **NDIA PMSC Guides Working Group**

**January, 2013**

***Joan Ugljesa  
Dan Butler***

# Objectives

- Review and maintain the five OMB-recommended PMSC guides to reflect
  - Changes to ANSI/EIA 748, policies, and regulations
  - Lessons learned and advancements in best practices for integrated program management
- Also includes the Planning & Scheduling Excellence Guide (PASEG) inherited from the NDIA ICPM
- Place all guides on a 3-year mandatory review/update cycle from the date of publication of each revision
- Guides Update Steering Group
  - To advise the PMSC Board of changes in policy and regulation that should be immediately incorporated in one or more guides
  - To accept requests for out-of-cycle changes and determine:
    - If change is appropriate and warranted
    - If change is immediately required
    - If change should be held for next regular update
