

NDIA Integrated Program Management Division

*Clearinghouse Working Group
Out-brief*

Gary Humphreys
Russ Rodewald
Dan Bellovary

Clearinghouse Out-brief

- **April Discussion topics**
 - DCMA CRC –
 - Use the DCMA website to submit specific wording and guidelines for comments/changes.
 - The DCMA CRC is not necessary needed to be included in your System Description.
 - EVMSIG Guideline 6 – M/ERP systems - how much detail is needed?
 - As long as the detail does not inhibit the work/analysis with program management.
 - Need Controls in place (System Description) in how to plan the work.
 - Passed to the EViP Working Group.

Clearinghouse Out-brief

- **April Discussion topics**
 - **EVAS Metrics –**
 - Industry to bring comments to Clearinghouse WG for discussion.
 - DCMA website contains link for comments/changes to the metrics.
 - Tripping a metric is only a talking point; not an automatic CAR.
 - **AUW –**
 - Provide for handling and reporting of AUW/profit in System Description.
 - Discussion extended to \$0 NTE (Pre-Contract/Mod Award).
 - Pass subject off to Contracts WG and Prime/Sub WG for discussion.

Clearinghouse Out-brief

- **April Discussion topics**
 - ‘Professional CAMs’
 - CAMs need to have the technical knowledge to manage the work. They sign the WAD, and are responsible for Cost, Schedule and Technical performance.
 - **Freeze Period Adjustments**
 - System Description should be specific on any baseline changes during the freeze period, especially on baselining Emerging Work. Examples:
 - 1) SOW change from customer
 - 2) Application of MR for a task that is needed to be performed immediately
 - 3) Accounting adjustments like for inaccurate charges and rate adjustments.

Clearinghouse Out-brief

- April *Lively* Discussions Topics with more to come
 - LOE Adjustments –
 - LOE adjustments – Good discussions on replanning LOE accounts
 - Defined processes are critical
 - MR for Rework – Lively discussion with varied inputs
 - If Design is 100% complete but part fails test, you can de-earn performance in Design to rework the issue.
 - System Description needs to explain approach.

Clearinghouse Out-brief

Presentations and issue input forms available on the Clearinghouse WG Page
