DCMA Mission:

Independent eyes and ears of DoD and its partners, enhancing warfighter lethality by ensuring timely delivery of quality products, and providing relevant acquisition insight supporting affordability and readiness

DCMA Vision: One team, one voice delivering global acquisition insight

Defense Contract Management Agency Headquarters - Fort Lee, VA

The Basics:

- 12,000 employees, mostly civilians, working at offices and contractor facilities around the world
- Contract administration services for DoD, other federal organizations and international partners
- Essential part of the acquisition process from pre-award to sustainment.
- Manages 350,000 contracts, valued at more than \$5 trillion, at 19,000 contractor locations worldwide

2018 National Defense Strategy Lines of Effort

Build a More Lethal Force

Strengthen Alliances and Attract New Partners

Reform the Department for Greater Performance and Affordability

DCMA Strategic Goals

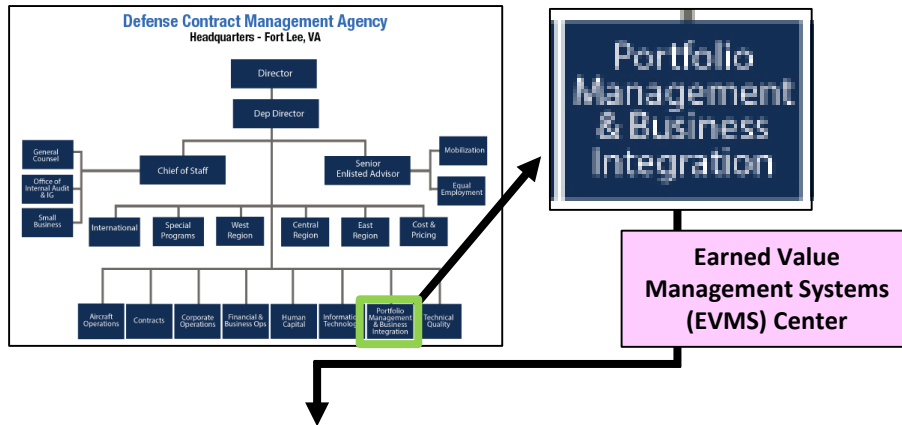

Strategic Goal 1: Enhance Lethality through on-time delivery of quality products

Strategic Goal 2: Enhance lethality through affordability

Strategic Goal 3: Ensure Agency funds are used in alignment with Department guidance and executed in a transparent, accountable manner

Strategic Goal 4: Reform the Agency business practices by working smarter not harder

Strategic Goal 5: Enhance and strengthen the skills, readiness, and effectiveness of the Total Workforce

- Mission:** The EVMS Center contributes to the DoD acquisition process through actionable assessments of contractor effectiveness at supplier facilities, which provides stakeholders with expectations of future performance and potential impacts on individual contractors and/or programs.
- Vision:** Serve as a dedicated partner for effective DoD acquisition decision making by ensuring integrated, reliable, and actionable Earned Value Management data

Strategic Goal 2: Enhance lethality through affordability

Objective 2.1: Adequately capture affordability data and results by developing and documenting business requirements

Objective 2.2: Improve contractor performance by influencing contractor profitability to motivate cost control and compliance

Objective 2.3: Maximize the full value of at risk funds by strategically exploiting Agency data and processes

Objective 2.4: Influence affordability and acquisition decisions by leveraging Agency data

Objective 2.5: Promote lethality at an affordable cost by analyzing industrial capabilities and identifying strategic risks

Objective 2.6: Support affordability to the Department by communicating DCMA's value proposition

- Provide pre-award review of EVMS plans and post-award support for Integrated Baseline Reviews (IBRs) to define the quality, completeness, and adequacy of the contractor's Performance Measurement Baseline.
- We review and assess contractor EVMS for initial and continuing compliance to contractual requirements, EIA-748 Guidelines, and DoD EVM System Interpretation Guide (EVMSIG) criteria.
 - We validate the integrity of cost, schedule, and performance data used to develop programmatic insights.
 - Issue and manage all EVMS corrective action requests and approved corrective action plans.

Our Value: Ensure Government Stakeholders have Objective and Reliable estimates of Product Delivery and Product Cost.

Products and Services EVMS Center provides:

- Develop and execute EVM System Surveillance Plans (SSP) to ensure ongoing system compliance
 - Engage with Contract Management Office (CMO) ensuring SSPs include high visibility programs; address potential systems risks identified through program analysis; and evaluate system deficiencies across contractor divisions
- Provide documented output from System Surveillance Reviews (SSR) providing an assessment and resolution of identified issues and ensure the system remains compliant
 - Reviews will include emerging issues identified through the CMO in addition to scheduled surveillance
 - Reports will report out to the CMO's and program offices the identified data anomalies; the impact of system operation on program analysis; and itemization of data anomalies identified as Corrective Action Requests (CAR)
- Execute Business System Reviews to provide functional input in support of the Business System Instruction
- Document, issue, and resolve any CAR identified through Surveillance or Business System reviews
- Engage with Program Offices to ensure the correct requirements are placed on contract
- Supply dedicated support to and as delegated by other entities when requested
 - United States Coast Guard (USGC)
 - National Aeronautics and Space Administration (NASA)
 - Intelligence Community
